Email is required.

### *Tech Stack*

Angular

Bootstrap4

HTML5

### *Data Source*

hardcoded JSON data from assets/users.json.

### *MVP*

1. To have an admin page to manage recipient list.
2. To have an user page to see the recipient name.
3. To have basic UI validation and styling.

### *Out Of Scope*

1. End To End Test Case Coverage

### *Developer*

Suraj Gupta.
